

Phoenix Dimensions - Death Benefit Option 1 (PHL) - By Asset Category

Sub-Account Performance Summary as of July 31, 2025

Phoenix Dimensions - Death Benefit Option 1 is a variable annuity. Currently, we do not offer this contract for new sales. This information is provided for current contract holders only.

The historic performance returns are based on an initial investment of \$1,000 for the time period indicated. All returns include the following deductions:

- investment management fees • daily administrative fees • mortality and expense risk charges

Non-Standardized Performance illustrates historic performance from the inception of the subaccount, reflects current product charges and does not assume a full surrender at the end of the period or withdrawal from the contract. Performance reflects investment management fees, daily administrative fees, and mortality and expense risk charges.

Product Charges

- No initial sales charge
- A premium tax charge (which is not reflected in the performance calculations) will be applied in states where required by law.
- Annual administrative charge: \$35 (State variations may apply)
- Administrative Fee: 0.125% (annually)
- Mortality and Expense Risk Fee: 1.125%
- Transfer Charge:
 - Currently no charges for transfers
 - We reserve the right to charge a fee of \$20 per transfer after the first twelve transfers in each contract year

The charges above do not include optional benefit fees which are more fully described in the contract prospectus. In addition to product charges, each subaccount/underlying fund may charge management fees and other expenses. The performance information provided here is net of applicable management fees and other fund expenses, which are subject to change and may vary for each underlying fund. Specific underlying fund fee and expense information is available in the prospectus for the fund, which may be amended from time to time and can be obtained by contacting Nassau Customer Service.

The insurance product is:

- NOT insured by FDIC, NCUSIF, or any other state or federal agency that insures deposits;
- NOT a deposit or obligation of, underwritten or guaranteed by, the depository institution or any affiliate;
- Subject to investment risk, including possible loss of principle invested.

CDSC: A surrender charge is assessed on withdrawals in excess of the free withdrawal percentage, and based on the date the purchase payments are credited. The surrender charge is waived if the withdrawal is due to the death of the owner, a Life Expectancy Distribution or if the annuity period has begun (except with respect to unscheduled withdrawals under Annuity Options K or L). A market value adjustment will apply to withdrawals prior to maturity from the 3-,5-,7- and 10-year fixed accounts.

Age of purchase payments in complete years	0	1	2	3	4	5	6	7+
Percentage 7 year	7	6	5	4	3	2	1	0
Percentage 5 year*	7	6	5	4	3	0	-	-

*There is an additional annual fee equal to .25% of each premium payment if the five-year surrender charge schedule is selected. Each fee is deducted for only five years, at which time it ceases.

Investment return and principal will fluctuate. Therefore, the contract value, when redeemed, may be worth more or less than the original cost. Withdrawals of income will be subject to tax and, if prior to age 59½, will also be subject to a 10% IRS penalty, except as provided for under IRC Sec. 72.

¹⁴**You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.** Current yield is the annualized average yield without compounding for the seven-day period ending on the date indicated. Yield is a function of the portfolio quality and maturity, the type of investment, operating expenses and mortality and expense risk charges. The results shown are not indicative of the rate of return that may be realized from an investment made in the money market subaccount. The yield more closely reflects the current earnings of the money market option than the total return. Subaccount yield DOES NOT include the effect of mortality and expense charges. If the mortality and expense charge had been applied, the current yield would be reduced.

Variable products involve investment risk, including possible loss of principal. Withdrawals, contract loans and under-performance of subaccounts will have the effect of decreasing cash values and the death benefit. Please consider domestic and foreign stock market volatility when evaluating investment options.

Investors should carefully consider the investment objectives, risks, charges and expenses of a variable annuity before investing. Further information about the variable annuity is contained in the contract prospectus and underlying fund prospectuses. You may obtain prospectuses from www.nfg.com, by calling your financial representative or by calling us at 1-800-417-4769. Please read the prospectuses carefully before investing.
